Education

B.E. – Computer Science & Design

2022–2026

Canara Engineering College

CGPA: 7.83

Pre-University (PCMC)

2020–2022

St. Agnes PU College

Percentage: 68.83%

SSLC

2019–2020

St. Mary's High School

Percentage: 68.64%

Internship

Intern - U R Rao Satellite Centre(ISRO), Bengaluru

Feb 2026 – April 2026

Developed and deployed eShiksha, a scalable web platform connecting trainees to learning resources, incorporating structured workflows and responsive UI design.

Projects

ASL Gesture Classification System

July 2025 – Nov 2025

- Developed a deep learning-based American Sign Language (ASL) gesture recognition system using Convolutional Neural Networks (CNN) for static gesture classification from images.
- Implemented image preprocessing, feature extraction, and classification using OpenCV and TensorFlow/Keras.
- Focused on building an accurate model to classify static ASL gestures for communication support.
- Tech Stack:** Python, TensorFlow/Keras, OpenCV.

Automated Internship Finder Bot 🤖

Nov 2025

- Developed an RPA bot using UiPath StudioX to automate internship searches based on job role keywords from Excel.
- Performed web scraping on target websites to extract recent internship listings and export structured data to Excel.
- Implemented features to append new results or clear previous entries for fresh output generation.
- Tech Stack:** UiPath StudioX, Excel Automation, Web Scraping

Personal Portfolio Website 🌐

Sept 2025

- Developed a responsive personal portfolio with a clean and minimal UI.
- Implemented smooth navigation, fast loading, and modern design using React, Vite, and Tailwind CSS.
- Deployed the website on GitHub Pages for seamless online access.
- Tech Stack:** React, Vite, Tailwind CSS

Technical Skills

- Programming Language:** Python
- Machine Learning:** TensorFlow, Keras, OpenCV, CNN
- Web Development:** React, Vite, Tailwind CSS, HTML, CSS
- Database:** MySQL
- Automation/RPA:** UiPath StudioX
- Tools and Design:** Figma, VS Code, Jupyter Notebook, UI/UX Design
- Soft Skills:** Communication, Teamwork, Leadership, Problem Solving

Courses and Certificates

- Udemy:** Figma 2023 Bootcamp- UI/UX Design, Prototyping & Dashboards — [Certificate](#) June 2025
- Coursera:** Google AI Essentials — [Certificate](#) Mar 2025
- NITK Surathkal:** Postman Classroom Program – API Fundamental Student Expert — [Badge](#) Dec 2024

Achievements

- Selected among Top 10 teams – SAP Hackfest 2025 (Round 2) — [Certificate](#)
- Selected among Top 20 teams at KSCST 2026 for presenting “SignAssist,” an AI-based sign language recognition system — [Certificate](#)
