Profile

As a Computer Science and Design Engineering undergraduate, I am passionate about exploring the intersection of technology and design. I am eager to learn new skills and contribute to innovative projects.

Education

- **Canara Engineering College** 2022 – 2026
Bachelor of Engineering (B.E.) in Computer Science and Design; CGPA: 7.68
- **St. Agnes PU College** 2020 – 2022
Pre-University (PCMC); Percentage: 68.83%
- **St Mary's High School** 2019 – 2020
SSLC; Percentage: 68.64%

Projects

- **ASL Gesture Classification System**
A deep learning model using CNNs to classify static ASL gestures from images. Includes a real-time interface and integration with communication tools to facilitate interaction between ASL users and non-signers.
Tech Stack Python, TensorFlow/Keras, OpenCV.
- **Sorting Algorithm Visualizer**
A visualizer that demonstrates bubble sort using OpenGL in C, where circles of varying sizes represent sortable values. Features include interactive buttons to start sorting, reset values, and exit.
Tech Stack C, OpenGL, GLUT
- **Simple Bus Reservation System**
A project that enables users to book bus seats through a C-based, menu-driven interface. Users can input personal details, select routes, and reserve seats. Arrays are used to manage and store data efficiently.
Tech Stack C, GCC(or Code::Blocks)

Skills

Languages: C, HTML, CSS, MySQL, JAVA

Tools: Visual Studio Code (VS Code), Jupyter Notebook, StarUML, Figma

Non-technical: Communication, Teamwork, Leadership, Problem Solving

Courses and Certificates

- **TATA Forage:** GenAI Powered Data Analytics Job Simulation [**Certificate**] *Aug 2025*
- **Figma 2023 Bootcamp:** UI/UX design, prototyping, dashboards in Figma. [**Certificate**] *June 2025*
- **Coursera:** Google AI Essentials [**Certificate**] *Mar 2025*
- **NITK Surathkal:** Postman Classroom Program [**Certificate**] *Dec 2024*

Achievements

- Participated in the SAP Hackfest 2025 *June 2025*
