Objective

As a Computer Science and Design Engineering undergraduate, I am passionate about exploring the intersection of technology and design. I am eager to learn new skills and contribute to innovative projects.

Education

- Canara Engineering College** 2022 – 2026
Bachelor of Engineering (B.E.) in Computer Science and Design; CGPA: 7.58
- St. Agnes PU College** 2020 – 2022
Pre-University (PCMC); Percentage: 68.83%
- St Mary's High School** 2019 – 2020
SSLC; Percentage: 68.64%

Projects

- ASL Gesture Classification System**
Developed a deep learning-based American Sign Language (ASL) gesture recognition system using Convolutional Neural Networks (CNN) for static gesture classification from images. Implemented image preprocessing, feature extraction, and classification using OpenCV and TensorFlow/Keras. Focused on building an accurate model to classify static ASL gestures for communication support.
Tech Stack: Python, TensorFlow/Keras, OpenCV.
- Sorting Algorithm Visualizer**
Built an interactive Sorting Algorithm Visualizer focusing on Bubble Sort implementation. Used OpenGL graphics to represent data as circles with size proportional to values. Enabled user interaction through graphical buttons to control sorting operations, reset data, and exit application.
Tech Stack: C, OpenGL, GLUT
- Simple Bus Reservation System**
Designed and implemented a menu-driven Bus Reservation System in C, enabling efficient seat booking and management. Handled user input for personal details, route selection, and real-time seat reservation. Used arrays and structured programming techniques for data storage and efficient management.
Tech Stack: C, GCC (or Code::Blocks)

Technical Skills

- Programming Languages:** C, Java, HTML, CSS, MySQL
- Web Development:** HTML, CSS, MySQL
- Database Management:** MySQL
- Development Tools:** VS Code, Jupyter Notebook, StarUML, Figma
- Software Design:** UML Modeling, UI/UX Design
- Soft Skills:** Communication, Teamwork, Leadership, Problem Solving

Courses and Certificates

- Figma 2023 Bootcamp:** UI/UX design, prototyping, dashboards in Figma. **[Certificate]** June 2025
- Coursera:** Google AI Essentials **[Certificate]** Mar 2025
- NITK Surathkal:** Postman Classroom Program **[Badge]** Dec 2024

Achievements

- Participated in SAP Hackfest 2025 and was selected in the top 10 for Round 2. June 2025
